Kent wide DA dashboard

Background

DAHA Accreditation

All Kent district councils are actively working towards achieving their DAHA accreditation.

Safety-Led Case Management

A key priority area within the accreditation process is establishing safety led case management.

Specific Requirements

This priority introduces critical requirements like flagging DA cases and managing perpetrator information.

Unified System

All participating district councils currently utilise the Huume system as their core platform for housing options.

Sutton Housing partnership

Gold Accreditation

Sutton successfully achieved their gold DAHA accreditation in April.

Dashboard Presentation

Presented their custom DA dashboard created on Huume to all participating district councils.

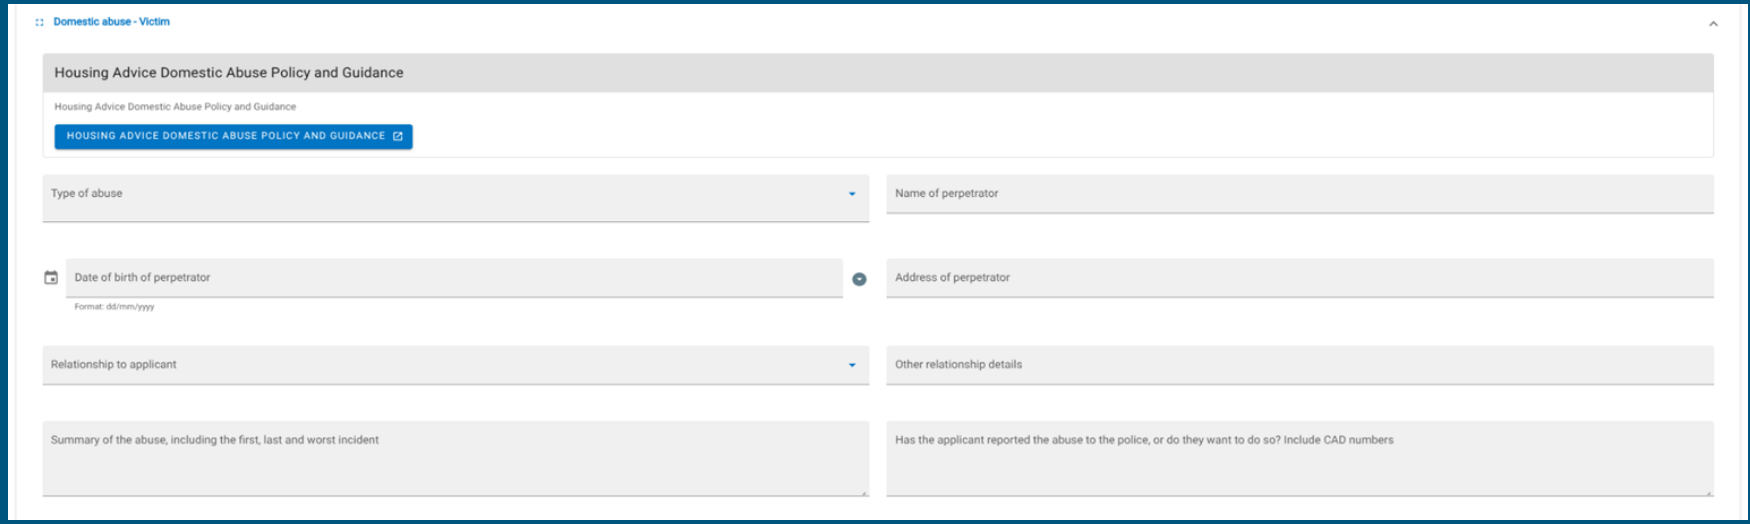
Separate DA Dashboard

This functions as a separate, dedicated DA dashboard environment within Huume.

DAHA Standards Met

Standards are fully met using strategic flags on DA cases, referrals, perpetrator details, and safety planning.

Examples of Sutton dashboard



What are the applicant's wishes - i.e. do they wish to flee or remain in their home?

☐ Sanctuary Scheme referral made

Have any counter allegations been made or is the applicant also a perpetrator?

Give Details

Risk Areas

Have any, or do any safeguarding referrals need to be made?

Has the applicant been referred, or offered referral, to any domestic abuse support services?

What measures are in place to manage risk?

☐ Dash Completed

Date of DASH Referral

Dash Score

- [ ] MARAC referral made
- [ ] Refuge Referral Made
- [ ] Sutton IDVA Referral Made
- [ ] Out of borough IDVA Referral Made
- [ ] Sutton Women's Centre Referral Made

Details of any other Referrals Made

Domestic abuse - Perpetrator

Housing Advice Domestic Abuse Policy and Guidance

Housing Advice Domestic Abuse Policy and Guidance

HOUSING ADVICE DOMESTIC ABUSE POLICY AND GUIDANCE

Feedback

Discussions with Maidstone and Ashford have been positive

Presented to the Kent domestic abuse local partnership board in June

Feedback was need for training, to get officer feedback on using the dashboard. There were also concerns over data governance with naming of perpetrators

Proposal

dashboard

Vicky Hodson can create the dashboard based on the Sutton format

settings

Each LA can make the decision around perpetrator details and the fields can be switched off

school

Training can be provided once fields and dashboard is created

event

Guidance and training can be provided annually

Benefits

dashboard

Survivor-Focused Care

Survivor focused on needs of individual

settings

Centralised DA Information

Information is all in one place, easy to find and clear for staff making it easier to protect survivors

dashboard school

DAHA Accreditation

Aids the DAHA accreditation in meeting standards of safety led case management

event

Unified System

LGR ready with a unified system
